To David, Candice, Thomas, Bob and everyone and Henson Fuerst,

First I'd like to say thank you so much for all that you have done. Thank you for being there during the worst time in my life. Not only were you there representing me during my personal injury case but you were there as a friend.

There were several times where I would call you David and you would call me. The first thing you had always asked was 'how are you doing' you were genuinely concerned with my injuries and how I was doing with the problems I was having. You were there not only as my attorney but as a friend. After the accident that resulted in my severe head injury, there were several attorneys that had I had received letter from requesting to represent me, but what stood out about Henson Fuerst was the professionalism combined with the concern for my injuries during my first initial consultation. I knew since I was bound for some hard times I wanted Henson Fuesrt to be on my side. You were there always as being someone I could count on for everything, from the problems I had with worker's compensation to the personal injury part of my accident.

If I had to recommend an attorney to someone who had found themselves in a unfortunate time of their life, there would be no other recommendation then Henson and Fuerst. I always felt secure in knowing you were always there. If any problem arose, you were there. When I had problems getting paid from worker's comp, you were there. You were there day and night. And I appreciated knowing I could always depend on you. During this time which was the worst time of my life I could always feel secure in knowing you would always be there during the worst of times to make things better.

Whenever a problem arose with my case you kept me informed. One of the most important things I noticed and appreciated was how you always returned my calls when I had called you. You never left me wondering

where is my attorney, why isn't he calling? I never sat around wondering what is happening with my case.

I was really impressed during my mediation with you David and Bob how professional you both were. I felt safe in knowing you were not going to let anyone take advantage of me. You never let anyone take advantage of me during the four years you represented me.

Thank you David for being not only my attorney but being a friend who cared. I also want to thank everyone behind the scenes at Henson Fuerst for all your help, it does not go unappreciated, or unrecognized. Thank you Candice for being there every time I had called and always returning my calls with answers to the questions from problems I have had. Thank you to everyone during the worst time of my life in helping to make me feel secure and safe in knowing I had someone on my side I could depend on.

A handwritten signature in cursive script that reads "George".
